* Operating Expenses, EBIT and net profit in Q4/2017 were significantly influenced by the positive effects from the sale of the ALD/CVD product line and are therefore not comparable.

### Positive quarter with increases in order intake and revenues / improved gross margin / improved profitability / 2018 Guidance confirmed

Due to the continuing demand for MOCVD systems, mainly for the manufacturing of lasers such as vertical cavity surface emitting lasers (VCSELs) for 3D sensing or optical datacom applications, order intake and revenues in Q1/2018 (both year-on-year and quarter-on-quarter) increased.

Order Intake in Q1/2018 increased year-on-year by 27% to EUR 78.6 million and quarter-on-quarter by 20%.

The increase in revenues and an increased gross margin compared to the same quarter last year supported the improvement in earnings. In addition, a low proportion of US dollar-based sales resulted in reduced currency effects on revenues. The gross margin in Q1/2018 rose to 43% and EBIT to 13%. At EUR 18.9m, operating expenses including R&D in Q1/2018 were lower than in the same quarter of the previous year (Q1/2017: EUR 26.4 million). Net profit in Q1/2018 including a tax credit of EUR 5.0m improved to EUR 12.3m. Operating Expenses, EBIT and net profit in Q4/2017 were significantly influenced by the positive effects from the sale of the ALD/CVD product line and are therefore not comparable.

AIXTRON Management therefore confirms its 2018 annual guidance of revenues and order intake in the range of EUR 230 to 260 million, and gross margin between 35% and 40%. EBIT margin is expected to be in the range of 5% to 10% of revenues. However, due to positive development of the business, revenues and EBIT margin are expected to be close to the upper end of the guidance. Furthermore, a positive Operating Cash Flow for the year is also expected.

Forward-Looking Statements

This document may contain forward-looking statements regarding the business, results of operations, financial condition and earnings outlook of AIXTRON. These statements may be identified by words such as “may”, “will”, “expect”, “anticipate”, “contemplate”, “intend”, “plan”, “believe”, “continue” and “estimate” and variations of such words or similar expressions. These forward-looking statements are based on the current assessments, expectations and assumptions of the executive board of AIXTRON, of which many are beyond control of AIXTRON, based on information available at the date hereof and subject to risks and uncertainties. You should not place undue reliance on these forward-looking statements. Should these risks or uncertainties materialize, or should underlying expectations not occur or assumptions prove incorrect, actual results, performance or achievements of AIXTRON may materially vary from those described explicitly or implicitly in the relevant forward-looking statement. This could result from a variety of factors, such as those discussed by AIXTRON in public reports and statements, including but not limited to those reported in the chapter “Risk Report”. AIXTRON undertakes no obligation to revise or update any forward-looking statements as a result of new information, future events or otherwise, unless expressly required to do so by law. This document is an English language translation of a document in German language. In case of discrepancies, the German language document shall prevail and shall be the valid version.

This financial report should be read in conjunction with the interim financial statements and the additional disclosures included elsewhere in this report.

Due to rounding, numbers presented throughout this report may not add up precisely to the totals indicated and percentages may not precisely reflect the absolute figures for the same reason.

Interim Management Report

1. Business Activity and Strategy

2. Business Performance and Key Developments

2.1. Development of Orders

Orders (in EUR million)                  | Q1/2018 | Q1/2017 | +/- m EUR | %
----------------------------------------|---------|---------|-----------|------
Order intake incl. Spares & Service     | 78.6    | 61.9    | 16.7      | 27   
Order backlog (equipment only)          | 114.9   | 87.6    | 27.3      | 31   

In a year-on-year comparison, Q1/2018 order intake increased 27% to EUR 78.6m. This development is mainly attributable to the strong demand for equipment used for laser applications such as Vertical Cavity Surface Emitting Lasers (“VCSEL”) for 3D sensing or optical datacom. In a quarterly sequential comparison, order intake increased by 20% (Q4/2017: EUR 65.7m).

2.2. Exchange Rate Development of the US Dollar

The average exchange rate used by AIXTRON to translate income and expenses denominated in US dollars in the first three months of 2018 was 1.22 USD/EUR (Q1/2017: 1.07 USD/EUR). Relative to the previous year, the average US dollar exchange rate weakened by 12% reducing the Euro value of US dollar denominated revenues in the first quarter. However, due to a low share of such revenues, currency effects had a minor overall impact on the quarterly sales. As of March 31, 2018, the US-Dollar/Euro exchange rate was 1.23.

2.3. Development of Revenues

Total revenues recorded during the first quarter of 2018 improved to EUR 62.4m compared to EUR 53.6m of the same period last year (Q4/2017: EUR 54.1m). Equipment revenues in Q1/2018 increased by 17% to EUR 50.8m and accounted for 81% of the total Q1/2018 revenues (Q4/2017: EUR 42.6m). These developments were mainly driven by the strong demand from laser applications as previously described.

EUR 11.6m or 19% of total revenues were generated by the sale of spares and services in Q1/2018, (Q4/2017: EUR 11.5m).

Revenues by Equipment, Spares & Service | Q1/2018 | Q1/2017 | +/- |
----------------------------------------|---------|---------|-----|
                        | m EUR | %      | m EUR | %      | m EUR | %      |
Equipment revenues     | 50.8  | 81     | 43.5  | 81     | 7.3   | 17     |
Revenues through service, spare parts, etc. | 11.6  | 19     | 10.1  | 19     | 1.5   | 15     |
Total                  | 62.4  | 100    | 53.6  | 100    | 8.8   | 16     |

Revenues by Region     | Q1/2018 | Q1/2017 | +/- |
----------------------------------------|---------|---------|-----|
                        | m EUR | %      | m EUR | %      | m EUR | %      |
Asia                   | 29.0  | 46     | 43.5  | 81     | -14.5 | -33    |
Europe                 | 23.5  | 38     | 4.1   | 8      | 19.4  | n.m.   |
Americas               | 9.9   | 16     | 6.0   | 11     | 3.9   | 65     |
Total                  | 62.4  | 100    | 53.6  | 100    | 8.8   | 16     |

</table>

An improved product mix together with an increase in sales resulted in a gross profit in Q1/2018 of EUR 26.8m (43%). This is an improvement in both a year-on-year and a quarterly comparison (Q1/2017: EUR 13.6m, 25%; Q4/2017: EUR 21.0m, 39%).

Operating costs in Q1/2018 at EUR 18.9m were lower year-on-year, compared to the previous year’s period adjusted by write-downs (Q1/2017 adjusted: EUR 20.8m). The quarterly sequential development is not meaningful, as this is distorted by the EUR 23.9m profit on disposal of the ALD/CVD product line in Q4/2017.

R&D expenses in Q1/2018 were EUR 13.7m (Q1/2017 adjusted: EUR 14.1m; Q4/2017: EUR 16.5m).

Net other operating income and expenses in Q1/2018 resulted in an income of EUR 1.4m (Q4/2017: EUR 24.7m income) mainly due to R&D grants. Net operating income and expenses in Q4/2017 were significantly influenced by the above mentioned positive effects from the sale of the ALD/CVD product line.

Operating result (EBIT) improved year-on-year from an adjusted EUR -6.1m in Q1/2017 to EUR 7.9m in Q1/2018 (Q1/2017 reported: EUR -12.7m; Q4/2017: EUR 24.4m). This positive year-on-year development is mainly attributable to the previously mentioned business and cost development. The operating result in Q4/2017 was significantly influenced by the above mentioned positive effects from the sale of the ALD/CVD product line.

The Company’s net profit in Q1/2018 amounted to EUR 12.3m (Q1/2017 adjusted: EUR -6.9m; Q1/2017 reported: EUR -13.5m; Q4/2017: EUR 27.2m). Net Profit in Q1/2018 benefitted from a EUR 5.0m credit of deferred taxes (Q1/2017 nil; Q4/2017 EUR 2.3m) resulting from the transition from losses in the past to expected profits in 2018. Net profit in Q4/2017 was significantly influenced by the above mentioned positive effects from the sale of the ALD/CVD product line.
3. Financial Position and Net Assets (Highlights)

3.1 Assets

Cash and cash deposits were at EUR 223.2m (EUR 223.2m + EUR 0m cash deposits) as of March 31, 2018 compared to EUR 246.5m (EUR 219.8m + EUR 26.7m cash deposits) as of December 31, 2017. As expected, payments of EUR 9.3 m in conjunction with the sale of the ALD/CVD product line were made in the quarter. Collections of receivables were low in the quarter reflecting the higher volume of shipments towards the end of the quarter.

Trade receivables amounted to EUR 30.0m as of March 31, 2018, compared to EUR 19.3m as of December 31, 2017, representing 43 days sales outstanding.

Inventories, including components and work in progress, increased to EUR 46.2m at March 31, 2018 (December 31, 2017: EUR 43.0m) because of increased order backlog.

3.2. Equity and Liabilities

Total equity as of March 31, 2018 increased to EUR 380.7m compared to EUR 368.9m as of December 31, 2017 mainly due to the period’s net profit. The equity ratio was 84% as of March 31, 2018 (81% as of December 31, 2017).

Advance payments from customers were EUR 28.5m as of March 31, 2018 compared to EUR 30.3m as of December 31, 2017.

4. Cash flow

The cash flow from operating activities in Q1/2018 amounted to EUR - 21m (Q1/2017: EUR 34.6m; Q4/2017: EUR 13.6m). This development is mainly attributable to the scheduled payments in conjunction with the sale of the ALD/CVD product line in Q4/2017 and the timing of sales, and therefore collections, in the quarter.
5. Opportunities and Risks

AIXTRON expects the following market trends and opportunities in the relevant end user markets could possibly have a positive effect on future business:

Short- and Mid Term

- Increasing adoption of compound semiconductor-based lasers for 3D sensor systems in mobile devices as well as sensors for infrastructure applications.
- Further increasing demand for lasers for ultra-fast optical data transmission of large volumes, such as for video streaming and Internet-of-Things (IoT) applications.
- Increasing use of LEDs and specialty LEDs (esp. red-orange-yellow, UV or IR) in displays and other applications.
- Increasing use of wide-band gap GaN- or SiC-based components for energy-efficient communication and power management in autos, consumer electronics and mobile devices.
- Progress in the development of OLED displays that require an efficient deposition technology.

Long-Term

- Development of new applications based on wide-band gap materials such as high-frequency chips or system-on-chip architectures with integrated power management.
- Increased use of compound semiconductor-based sensors for autonomous driving.
- Increased development activities for high performance solar cells made of compound semi-conductors.
- Development of new materials with the help of carbon nanostructures (carbon nanotubes, -wires and graphene).
- Development of alternative LED applications, such as visual-light communication technology or micro LED displays.

During the first three months of 2018, AIXTRON Management was not aware of any significant additions or changes in the risks as described in the 2017 Annual Report referred to above.

6. Outlook

Based on the results for the first three months of the fiscal year 2018 and the internal assessment of the development of demand, AIXTRON Management confirms its 2018 full year guidance given in February 2018.

Accordingly, AIXTRON Management expects revenues and order intake in the range of EUR 230 to 260 million, and Gross margin between 35% and 40%. EBIT margin is expected to be in the range of 5% to 10% of revenues. However, due to positive development of the business, revenues and EBIT margin are expected to be close to the upper end of the guidance. Furthermore, a positive Operating Cash Flow for the year is also expected which will be lower compared to 2017.
